ChoiceCenter Leadership University Presents:

LET'S STAND TOGETHER

To stand together we must learn together. Join an eye-opening workshop to explore your unconscious bias and the racial lens through which you experience the world.

A recent series of violent crimes against Black Americans has once again highlighted the issue of systemic racism in America. It has led to a week of protests, outrage, heartache, and a demand for justice to be served, policies to change, and belief systems to transform.

How do we come together and where do we start when we feel overwhelmed by the enormity of the challenge? We begin by having authentic and courageous conversations. When we are willing to listen and to seek to understand how others experience inequities, that awareness can spark collaboration, turning opposing viewpoints into partnership.

On **Sunday, June 7**, from **Noon to 2:30 p.m. PST**, ChoiceCenter Leadership University will host a **conversation with grads and guests to raise awareness around social justice** issues by exploring:

- Unconscious Bias
- White Dominant Culture
- How we can become an ally

This interactive workshop will provide opportunities to express your feelings around current events, as well as share personal experiences and insights that may support others to understand and process these issues.

The conversation will be guided by **ChoiceCenter COO Corrine Clement** (LV74) who has more than 20 years of

experience building inclusive cultures. Most recently serving as **Vice President of Culture & Diversity** for **Wynn Resorts**, she is the founder of **The DEI Institute**, a company that advises and trains

boards, philanthropic organizations, and corporations on diversity, equity and inclusion.

Breaks will be offered every hour during the workshop. To receive the **Zoom meeting code**, register at www.choicecenter.com. On Sunday, go to www.zoom.us, click **Join Meeting** and **enter the access code**.

FREE WORKSHOP:

Sunday, June 7th | Noon to 2:30pm PST
